

UNDERSTANDING AND MEASURING FINANCIAL ALIGNMENT

Kent State University and Akron Children's Hospital

PROJECT SUMMARY

Expanding upon Kent State University and Akron Children's Hospital's previous Aligning Systems for Health rapid-cycle research grant that explored how the Pathways Community HUB care coordination model facilitates the core components of aligning across

sectors, Kent State University and Akron Children's Hospital seek to expand understanding of the dynamics of financial alignment in communities seeking to align health care, public health, and social services and to develop measures of financial alignment status and progress applicable to these kinds of communities.

A grantee of

ALIGNING SYSTEMS FOR HEALTH

Health Care + Public Health + Social Services

Framework for Aligning Sectors
